- (d) some of them are highly poisonous

**Ans: (1- d) (2 - c) (3 - a) (4 -b)**

## **IV. Answer the following.**

**1. What is a terrapin?**

**Ans:** A terrapin is a small turtle living in fresh or brackish(slightly salty, as in river) water.

**2. Why are creatures with shells unique?**

**Ans:** They are unique because they do not have bones to their body, but have them outside in the form of shells. The shells protect them from outside attacks.

**3. What does a Jelly fish use its tentacles for?**

**Ans:** It uses its stinging tentacles to catch its prey.

**4. Describe a Seahorse.**

**Ans:** The seahorse is named for the shape of its head which looks like a tiny horse. The most interesting fact about it is that the male seahorse gives birth to baby seahorses.

**V. Give examples for:**

**1. Name two creatures with shells.**

**Ans: Crab / Prawn / Clam / Lobster**

**1. How can we help to protect our Marine Life?**

**Ans: Things you can do to save the marine Life.**

1. Reduce energy consumption.
2. Make safe, sustainable seafood choices.
3. Use fewer plastic products.
4. Help take care of the beach.
5. Don't purchase items that exploit marine life.
6. Be an ocean-friendly pet owner.
7. Support organizations working to protect the ocean.

**(ANY OTHER REASONABLE ANSWER IS ACCEPTABLE)**

**VII. Value Based Question:**

**1. It is said that a dog is a man's best friend!**

**Why do you think this is stated? What are some of the things we too can learn from them?**

**Ans:** There's a reason we call a dog man's best friend because of their close relations, loyalty, and companionship with humans. Dogs have the ability to sense what's really going on. We can learn so many things from a dog's behavior, personality, resiliency, and most importantly, the willingness to provide their family members with unconditional love, loyalty, and companionship.

**(ANY OTHER REASONABLE ANSWER IS ACCEPTABLE)**
